To: Garnett Long
Subject: fleet and public works

Hey Garnett, Eddie said he got an email saying you had not received this one. I sent yesterday. On the public works it looks like we are reusing existing materials and rerouting some grills and duct in some baths and then the quiet area. On that scope I priced 9k for two days labor and some miscellaneous flex etc. and the new exhaust fans. As for the fleet on the new office area I have 2 x 3 ton units going in there with duct grills copper etc. \$35k for that space. I didn't have anything to mark up on the public from what I saw but can send drawing with units and duct on the fleet to show layout. Please let me know if this comes through since attachment yesterday did not. Thanks

To: Garnett Long
Subject: RE: Newton Co. - Renovations to Fleet and Public Works Offices

Good morning, looking at these two spaces as if there will be a complete gut vs re routing duct and changing some etc
Fleet \$83,200
Public Works \$62,400
Now these prices can be reduced drastically upon looking in ceiling and seeing current layout and what gets damaged during remodel etc.

Subject: Re: Chamblee Real Time Crime Center

Good morning Mike,

Thank you for the opportunity to review this again. Our best number in an effort to get this project going is \$48,500 and that includes the mini-split.

Please let me know if you have any questions.
